## **BILL:** Voluntary euthanasia under strict conditions to be legalised

### **SUMMARY**

Terminally ill persons may make application supported by two doctors' reports and two psychiatrists to be allowed euthanasia

#### **PROS**

- It's a choice issue, the ultimate civil right
- Saves people dying in unnecessary pain
- Allows dignity in death

#### **CONS**

- Would lead to further legalised killings of elderly and disabled
- Economics of modern medicine would promote killings, cheaper to kill than keep alive
- Value human life

### **SUMMARY FORUM**

Top 3 views as endorsed by members

#### **FOR**

- The will of the minority should not dictate the way the majority choose to live
- It is the ultimate civil rights choice
- Dying with dignity and without pain

#### **AGAINST**

- As humans we must value life above all else
- Would be the start of allowing further killings and introduction of death penalties
- Medical costs would promote a slacking of the protective guidelines

## **SENATOR'S VIEW**

### **Pat Reilly**

Voluntary euthanasia allows people under protective guidelines the choice to obtain a desired peaceful death with dignity.
